

David Criss

PEER MENTOR

After 20 years working long hours in his family's numerous franchises, David Criss is looking forward to his new role as a Peer Mentor throughout Brisbane and surrounding regions.

Living in Redcliffe, David is a regular at the gym and also dedicates a lot of his leisure time to his interests in music, cars, and lighting and effects.

David sustained C6 quadriplegia in 1987 when he was 16. After nine months in the Spinal Injuries Unit, he returned to high school to complete Years 11 and 12 before joining the family business. David was a 'jack of all trades,' responsible for everything from bookwork to working in the stores.

For many years David has taken his car to the Spinal Injuries Unit to show patients his modified vehicle and how he drives using hand controls.

David said becoming a Peer Mentor was a great way to meet people one-on-one to share some of his experiences and provide a supportive ear.

If you want to get in touch with David, please contact him on 0416 057 833 or davepeersupport@hotmail.com.
