

# SUPPORTS COORDINATION

Supports Coordination is an NDIS-funded role independent of other services. Supports Coordinators work with you to understand and implement your NDIS plan. They connect you with supports and services in your local community, with the overall aim of helping you understand and achieve the goals in your NDIS plan.

## How we can help you

Our experienced Supports Coordinators will work with you every step of the way helping you to navigate your way through the NDIS. They can provide you assistance to:

- Understand your NDIS plan and your funded supports
- Monitor your budget
- Research and support you to connect with services and providers that best suit your needs and goals
- Obtain quotes for services from potential providers
- Review your plan when necessary and reassess your goals and support needs
- Liaise with the NDIA and other government agencies.

## Experience the Spinal Life difference

Our team offers unique insight, expertise and professionalism backed by nation-wide resources to help you navigate the NDIS. Our focus is on developing your capacity and skills to live and manage your own life. We do this by providing personally tailored information and healthcare services, employment, community, and in-home personal care services.

## Where do we offer Supports Coordination?

We provide this service in Queensland and Perth to people who have an NDIS plan.
